

## Make Your Own Bush Fairy Letterbox

Celebrating the release of the May Gibbs 100th Anniversary Stamp release from Australia Post we decided our little bush babies needed their own little bush fairies letter box. Collect a few sticks from the backyard or local park and you're ready to start.

### You will need:

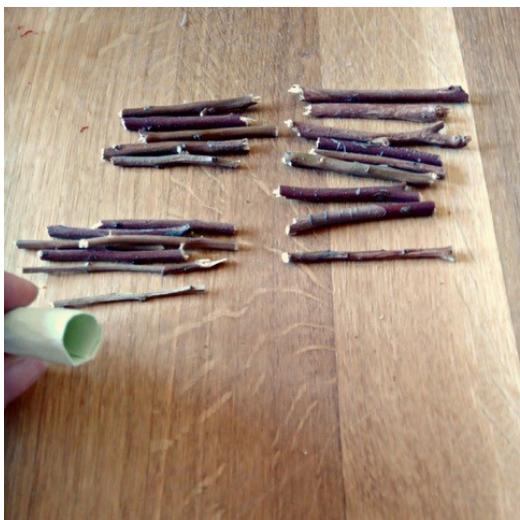

- Small sticks
- Small Rock
- Gumnuts or gum blossoms
- Cardboard
- Scissors
- Hot glue gun

### Instructions:

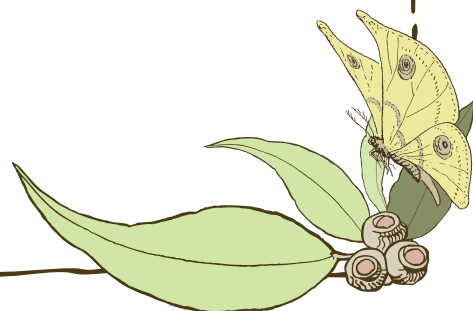

### Step 1:

Cut a small piece of card and roll, this will become the frame for your letterbox.

### Step 2:

Break up some small sticks into the length you want for your letterbox. You will also need a few longer sticks for the post of the letterbox.

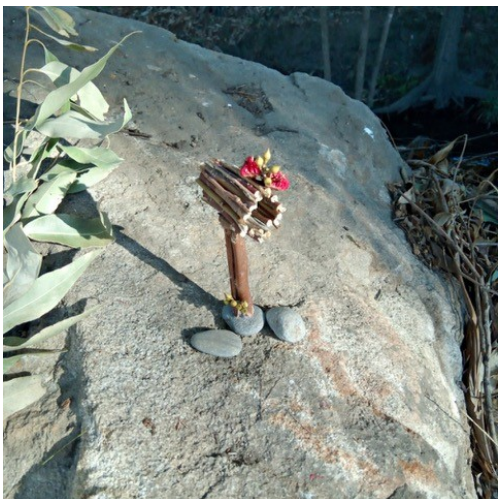

### Step 3:

Glue the sticks around your card using the hot glue gun. You now have your letterbox. You also need to glue on your letterbox post - we used two slightly bigger sticks to make it a bit stronger.

### Step 4:

To help the letterbox stand up we hot glued the letter box post to a rock and we added a little flower blossom to help our letter box stand out to the bush fairy postie.

### Step 5:

Place your letterbox in the garden for the bush fairies to receive their mail!
